

# Accelerated Solutions Program

Unlock savings and advanced clinical capabilities for your cardiac cath and electrophysiology labs

## Alternative to capital budgeting

Offering an alternative to capital expense budgeting, the Accelerated Solutions Program (ASP) enables CardioLab™, Mac-Lab™ and ComboLab™ users to optimize resources while ensuring their cardiac catheterization and electrophysiology labs remain at the forefront of clinical and technological advancements. ASP also provides long-term budget predictability for users looking to expand service line capabilities. The program simplifies lifecycle planning and enables users to achieve potential savings over a five-year contract.

## Capital expense budget challenges

### Healthcare IT

- Limited, or no, inter-operability between labs
- Significant capital investment required to keep labs at same version
- Stay abreast of cybersecurity threats

### Clinical

- Staying current with capabilities may require un-planned investment

### Procurement

- Uneven lifecycle planning & budgeting, from year to year

### Finance

- Limited, or no, fixed pricing over lifecycle of assets

### Biomedical engineering

- Parts & services are procured through different processes

## ASP offers a comprehensive solution for long-term planning

With unlimited software upgrades,<sup>1</sup> ASP includes accelerated access to critical new capabilities,<sup>2</sup> as they become available, including tools for self-maintenance, lab inter-operability, and evolving cybersecurity capabilities. Keep systems current with access to the latest clinical capabilities and annual onsite clinical education.

### Simplified lifecycle planning

- Evens out the lifecycle budgeting, from year to year
- Locks in pricing for term of agreement and next term

### Additional services and support<sup>3</sup>

- Parts, 2<sup>nd</sup> tier support, and security patches provided through software service agreements
- Optional training for updates and technological advancements

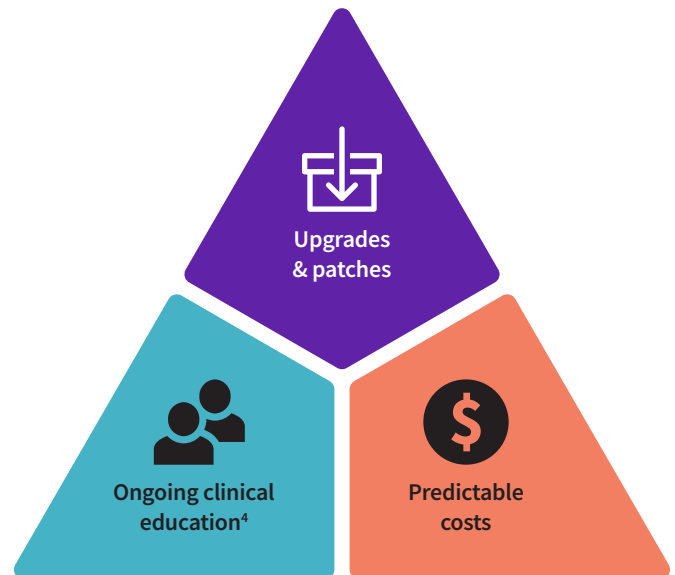

### Lower up-front costs

- Customers can potentially realize lower up-front costs and lower total costs across the term of the agreement, while staying current with the latest system versions
- May drive savings over a 5-year period

## Why choose ASP?

The Accelerated Solutions Program not only ensures your cath and EP labs have access to the latest tools and capabilities but also provides predictable budgeting for service line expansions. It is a comprehensive solution to meet the demands of modern clinical environments.

## Take action today

Contact your local GE HealthCare representative now to explore how we can tailor this program to your specific needs. For more information, visit [gehealthcare.com](https://www.gehealthcare.com)

1. Includes keeping current functionality, including updates and/or upgrades and patches to the Software when and if commercially available and only if provided to all GEHC customers with the Subscription for the Software. Excludes third-party licensed apps or optional clinical packages.
2. Features/capabilities that customer did not previously license/purchase are not included.
3. Included as part of GE HealthCare service agreement.
4. Dedicated training for updates and technological advancements is optional.
