

Perinatal solutions

You've got them.
We've got you.

Together, we deliver
patient-centered care.

In labor and delivery,

Clarity matters. Precision matters. Coordination matters.

70%

Of medical errors are due to poor communication, often resulting from fragmented data¹

33%

Of nurses say that they have an ideal amount of time to spend with their patients²

100,000

Registered nurses have left the profession since 2020¹

600,000

Registered nurses are intending to leave by 2027 due to stress, burnout and retirement³

→ Staff burnout is real. How do we change this trajectory?

1. Health IT Outcomes. (n.d.). *Healthcare is complex and fragmented – this makes coordination of care and sharing information a challenge*. <https://www.healthitoutcomes.com/doc/healthcare-is-complex-and-fragmented-this-makes-coordination-of-care-and-sharing-information-a-challenge-0001>
2. AMN Healthcare. (2023). *2023 Survey of Registered Nurses*.
3. National Council of State Boards of Nursing (NCSBN). (2023). *Examining the Impact of the COVID-19 Pandemic on Burnout & Stress Among U.S. Nurses*

Facing unique challenges with a common vision

To help your teams work as one at every phase of the perinatal journey, you need:

Simplified workflows

via always-on solutions that create space to focus on what truly matters

Unified systems

that transform fragmented data into a clear, actionable information

Technology that adds value

without adding complexity

Timely insights

enabling teams to catch critical data to help ensure patient safety

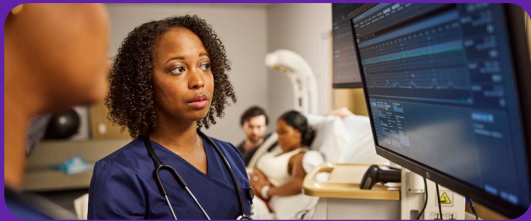

Perinatal solutions

Clarity is key in the world
of perinatal care.

GE HealthCare's devices,
digital technologies, clinical
accessories, and services
help you synchronize
perinatal care.

You've got them. We've got you. Together, we deliver patient-centered care.

To support every phase of the birthing journey, our comprehensive portfolio provides a complete view of maternal and fetal health, allowing you to respond to patient needs with informed, timely interventions.

CareIntellect for Perinatal application*

Together, we deliver immediate insights

CareIntellect™ for Perinatal enables care teams to spend less time charting and more time caring for families and their babies.

Simplifying decision-making

Clear, intelligent insights

Reduced administrative burden

Synchronized workflows

Secure, reliable technology

Seamlessly integrates with IT workflows

Cloud-based tools to drive scale

Works across any monitoring platform

[Learn more](#)

Novii+ Wireless Patch System

Together, we deliver comfort and confidence

Our trusted wireless, beltless solution that non-invasively measures fetal heart rate, maternal heart rate and uterine activity.

Peace of mind

Monitor during late preterm starting at 34 weeks

Freedom

Easily change positions and bathe or shower

Choice

If giving an epidural, FHR monitoring can continue unrestricted

Mobility

Choose laboring position and ambulation activity

[Learn more](#)

Panda Warmer

Together, we deliver a warm welcome for your newborn

The Panda™ Warmer is designed with simple, easy-to-use features and tools that don't require moving newborns from one device to another.

Space-saving heater and X-ray tray

Features an integrated X-ray cassette tray

Integrated scale

Built-in scale makes taking baby's weight easy

Hands-free alarm silence

Easily control alarms by simply waving your hand in front of the sensor

Adjustable light

Dimmable observation lights and an integrated procedure light

[Learn more](#)

Corometrics 250x series maternal and fetal monitoring system

Together, we deliver flexible clinical support

The Corometrics™ 250cx Series ensures a high-quality experience with comprehensive maternal and fetal monitoring.

Exclusive Smart BP

Delays blood pressure measurements for focused contraction monitoring

Innovative display

Adjustable ChartLight enables comfort in low-light conditions

Exceptional performance

9-crystal transducers offer superior coverage with less repositioning

Minimize monitoring

One-touch hot keys help simplify workflow

Corometrics 170

Together, we deliver reliable, accurate assessments when you need them most

Corometrics™ 170 is compact and lightweight, noninvasively tracking a baby's heart rate for non-stress tests, improving the standard of care.

Fetal heart rate alarm

Alerts for user-defined heart rate limits with both sound and visuals

Heart rate offset mode

Offset twin heart rates by +20 BPM for visual clarity

Heartbeat recognition

Detects duplicate signals, providing visual and audible alerts

Remote event marker

Simplifies annotating fetal movements or other events on the chart

Perinatal clinical accessories

Together, we deliver exceptional patient care

We offer high-quality, OEM, reliable, and compatible clinical accessories that provide optimal skin-to-screen insights.

Convenient

Easy to apply and use

Accurate

Comprehensive view of mom and baby

Adaptable

Products like Novii+™ patches with wireless functionality and waterproof benefits

Compatible

OEM clinical accessories — including TruSignal™ SpO₂ sensors and our comprehensive blood pressure cuffs — work seamlessly with your devices

Critical care equipment services

Together, we ensure your teams are ready for care

Our services are designed to support your devices, helping enable uninterrupted care to keep equipment at peak performance.

Optimal performance

Keep your devices at their peak, so care teams can focus on what matters most

Efficiencies in maintenance

Proactively lower the cost of managing your fleet

Expert support

Our experts are here to help your teams with innovative support tools

Why perinatal solutions?

Technical excellence

Ensuring seamless workflows

Protocol adherence tools

Advanced interoperability for high-quality data capture

Evidence-based decision-making

Aggregated, reliable data to unlock deeper clinical and operational insights

Streamlined workflows

Seamless integration into existing IT ecosystems, with robust, cloud-based cybersecurity measures

Advanced care consistency

Consistent, reliable access to data adhering to protocols and reducing variability

Uninterrupted care

Dedicated field engineers, extensive parts network and 24/7 repair coverage

Why perinatal solutions?

Clinical excellence

Enhancing patient care

Patient safety and outcomes

Advanced fetal monitoring solutions delivering care in diverse patient populations

Evidence-based care

Data and clinical decision support, ensuring no critical signs are missed

Synchronized care coordination

Patient information flows effortlessly between devices and teams

Clinical efficiency

Simplified tasks and remote surveillance to optimize limited staff resources

Let's deliver more, together

Perinatal Solutions enables coordinated care between teams, empowering them to provide supportive, compassionate care for every birth experience—uniting teams with shared, complete situational awareness and to act as one to support patients during their most vulnerable moments.
